BROCKDORFF-RANTZAU QUOTED AS NOT GOING TO SIGN THE ALLIED PEACE TERMS

STATE EVIDENCE ALL IN ARDARY DEFENSE OPENS

TWISTED MAZE OF CIRCUMSTANCES IS HEARD BY JURY

In this column we take up the proceedings of the Ardary trial where we left off yesterday afternoon.

Sheriff Gorman was recalled and asked concerning a conversation he had with Ralph Ardary at the Clearfield Hospital the day following the shooting. The defense objected to the testimony but the objection was overruled by the Court. The witness said Ralph told him about inviting Lawrence over to help him break the colt, that Lawrence arrived about 1 o'clock and he called him three times to come upstairs and help him with a barrel he got stuck within the stairway; that he saw Lawrence coming out of Georges room; that when they went to the barn and were working at the hack when Lawrence asked to buy the colt and on his refusal to sell said he would get the colt, Cora and the farm, and with that started to shoot at him. One bullet went through his hat and when he had thrown Lawrence down he shot him through the arm when he broke loose and fled downstairs and fired the third shot when he was going through the horse stable. When asked where the bullet which went through the hat could be found in the barn Ralph told him in the rear of same and when he arrived at the barn he found the bullet hole in the board and removing same from the barn properly marked it and brought it to the District Attorney's office. He was then asked regarding the barrel Ralph brought from the attic and said he secured it and brought it to the District Atorney's office. The board was brought into court and after the bullet hole was shown to the jury the board was admitted in evidence. The course of bullet through the board, the prosecution will contend, precludes its having been fired by Lawrence Ardary, accepting Ralph's version of the affair.

George Ardary, brother of Ralph, was called to identify the barrel which Ralph brought down from the attic and told of putting it in the granary at the request of Sheriff Gorman.

The Sheriff was again recalled and identified the barrel by his initials which he had placed on the barrel when he got it. The barrel, a small one in which sweet potatoes had been shipped, was then placed in evidence.

H B. Gaulin, Court Stenographer, who had taken Ralph Ardary's statement at the Clearfiled Hospital for the District Attorney, was placed upon the stand and identified his stenographic notes of that statement, which was then read to the jury.

This statement contains much that has already been published about the affair regarding the happenings leading up to the fatal day, one of the chief points of variance being in regard to the barrel. In the statement read he says he could easily have carried the barrel down himself but just called Lawrence to help him, he did not know why.

Engineer Van Valzah was then recalled to testify concerning the measurements of the board in which the first hole was located and testified from his notes that it was 38 3-4 inches from the floor and six feet 6 and five eighth inches from the side of the mow. The hole goes down and to the left from the inside of the barn ,the sides of the hole were clean He was then asked rearding the rise of the bullet from where it was fired to where it entered the board. He said the rise was one and eighth-tenth inches to the foot. It was 16 feet from the front of the barn.

(Continued on Page Four)

ACCUSED TAKES THE STAND AND TELLS HIS OWN STORY

When Court called at 9 o'clock Mr Liveright, of Counsel for the defense, arose and presented the defendant's side of the case to the jury. He told the jury they would prove Ralph Ardary's innocence out of his own mouth as they proposed putting him on the witness stand to recite his story as told to District Attorney Arnold at the hospital. He detailed the story of Ralph's visit to Lawrence's home to invite him to come over to help break the colt, the episode of the barrel in the attic stairway and recited that Ralph was constitutionally timid and nervous, leaving the inference that Ralph called Lawrence to go to the attic with him for companinship more than help. He told the story of the shooting with minute detail and all of the circumstances following and closed by stating they would show by personal testimony that Lawrence Ardary had spent twelve nights at the George Ardary home following his death and was not only familiar with the premises but knew George had a revolver was opposed to George coming to the farm to live, and also that he had an obsession to possess the colt in question and was infatuated with Cora Ardary and desired to possess her; that he was a man quick to anger and often used his right hand to shoot and to work with otherwise. Also that they would explain the bullet hole in the board by showing that bullets fired from the same distance into a piece of the very board in evidence took the same course as the bullet Ralph alleged went through his hat. Mr. Liveright occupied thirty minutes in his presentation and following its conclusion began the taking of testimony by calling City engineer E. W. Hess to the stand to identify maps and plan of the Ardary house, barn and grounds made by him for the defense.

Ralph Ardary was called and sworn at 10:30. He said he was 23 years of age last October and lived at the George W. Ardary home with his sister Cora and brother George W., Jr. He said he was a farmer in summer time and dug coal in the winter. His mother died seventeen or eighteen years ago; also had three other sisters;quit school at 8th grade when he was 15 ,and had always been afflicted with stoppage in his speech; said they had five horss and six head of cattle on March 11th Lawrence Ardary was his cousin. Said his cousin had come to their home following his father's death without invitation and stayed there for twelve days; every day he would tell Ralph he wanted the colt and would say so several times a day. After Feb. 9th he would curry and work with this colt for two hours at a time; he slept with Ralph while he was in the house; never owned a revolver; Lawrence often ate there and helped with the chores; saw Lawrence get up one night and look through the bureau drawers in their room; quit staying there when George came back after his father's death, but was there several times during the day after George came but never stayed at night; last time he talked with Lawrence about the colt was at 9 o'clock on the morning of the shooting when he went over and asked him to come and help hitch up the colt; he asked Lawrence to help because he was afraid of the colt; he stayed at his uncle's home until 10 o"clock after Lawrence and his father drove away; he then called Orvis Smith to help with the colt, this was about 10:50; he said he didn't know whether he could come or not and he called him again at 12:30; had dinner at 12 o'clock with his sister Cora; Lawrence came at a quarter of one and they sat in the kitchen awhile; had been up in the attic with his sister in the morning, and asked her to go along because he was kind of scared and wanted company, he was always nervous; day before horse had smashed the feed box and he saw barrel in the attic he thought would serve his purpose; it had paper in it and he didn't bring it down. After dinner while talking to Lawrence in the kitchen he asked Lawrence to go with him to the attic to get the barrel, Lawrence made no reply, and when on the way up he called Lawrence again but got no answer; he continued to the attic then took the paper out of the barrel and started down, slipped on some tacks at the edge of a step and the barrel rolled down the stairs and lodged at the door; as he was picking up the barrel he saw Lawrence come out of the bed room, and without speaking start down stairs; he followed down with the barrel and Lawrence went on out to the barn while he, Ralph, started to get a bucket of coal at the coal shed and after taking it to the house, took the barrel to the barn and then went up the steps to the barn floor, and found Lawrence standing by the door at the head of the stairs; he asked him to help take the top off the hack and getting a wrench started to loosen the rods; he had taken two burrs off when Lawrence asked for the wrench and unscrewed the burrs on his side of the hack; Lawrence then came around the hack and said "get to hell out of the road" and proceeded to loosen the top on his side, and afterward they took the seats off the hack and set them between the hack and haymow and then they lifted the top off and set it on the left of the front dor; he then walked over to put the burrs on the rods and while stooping over Lawrence asked him if he was going to sell him the colt, he said no and Lawrence then pulled the gun and shot through his hat; He was facing the left hand haymow and Lawrence was at the side; the the shot was fired he struck up Lawrence's hand and then grabbed him and threw him down on a pile of hay and Lawrence then shot him through the arm; he then wrenched loose, got up and ran down stairs through the horse stable; he ran out and jumped over the gate or door into the barnyard and ran toward the house. His arm was paining him and he walked onto the back porch and into the kitchen where he met his sister Cora. After he had started to run from the barn and had reached the door of the barnyard he heard another shot, seemingly from the barn floor. When he entered the house he told Cora" Lawrence tried to kill me; he then took off his jacket and sweater to have his wound dressed.

Cora went to the telephone and called the doctor and neighbors. Orvis Smith being first to respond. He did not go back to the barn but stayed about the house until 4 o'clock, when he started for the hospital with his brother George in a buggy and at the stone house farm was taken in a car to the hospital where the bullet was removed from his arm about 6 or 7 o'clock; stayed there three weeks arm still pains him. Remembered the hat he had on but did not recall how he wore it that day. Asked concerning George's revolver, said he had handled it and snapped it several days before and that it was kept in their bedroom in the bureau, the drawer of which was open, sometimes it would be on top of the bureau; at night it was kept on a chair alongside the bed and returned to the bureau in the morning; this was in the room from which he saw Lawrence coming when he was coming down stairs with the barrel. He denied telling Officer Leavy and Sheriff Gorman that the barerl had caught in the stairway and said he didn't think he had ever said such a thing because the barrel did not stick.

He concluded his story at 11:30 and was turned over to Mr. Miller for cross examination.

ATTENTION RED MEN

All members of Chinclaclamoose tribe No. 407 are hereby requested to meet in their Wigwam in K. of M. hall, Second street on Sunday beginnigg May 18, 1919 at 6:45 o'clock for the purpose of attending special services in the Eleventh Street M. E. church. A large attendance is requested.

5,16-2tc Committee

KIDS ARE JOYFUL SO IS DAD. CIRCUS BETTER THAN EVER

Though late arrival, due to railroad connections, made many a little heart in Clearfield quake with fears of disappointment, this is the day when juvenile dreams came true and the "boys" and "girls" of sixty as well as those of six will get their fill of thrills and excitement.

For John Robinsn's Circus, which has delighted three generations of Americans and has become a national institution, is in Clearfield today. There was a gorgeous, golden, glittering street parade around twelve o'clock to reward the thousands who patiently awaited the coming of the spectacle. There was a matinee this afternoon at 2 o'clock and there will be another performance tonight at 8, the doors opening an hour before each to allow inspection of the zoological paradise. Tickets were on sale all day at Stewart's drug store, 207 Market street, at the same prices as at the show grounds, the purpose being solely for the accommodation of those who wished to avoid the crush at the exhibition lot—the Leavy grounds near the Electric Light plant.

The parade of the Robinson circus proved a just reward for all the folk who lined the entire route and who had waited nearly two hours beyond the scheduled time. It embraced all the thousand and one wonders, gathered from every corner of the civilized and uncivilized world, to constitute America's premier tented attraction. There were cavalcades of beautiful women, clad in silks and satins and mounted on prancing, satiny coated steeds; a world renowned company of scarlet-trousered and fez-topped zouaves; warriors, representing all of the nations which crushed Prussianism; gymnasts, aerial performers, questriennes and equestrians, trick mules and donkeys with trick riders and drivers; more than a hundred clowns; magnificent tableaux floats gilded and ablaze with tinseled glory cage after cage of ferocious, man-eating wild beasts, on view in open den—a thrilling galaxy of marvels embracing every branch and field of entertainment and amusement, combined in a program declared to appeal to every human emotion and to abound in a million thrills.

Beneath the great "big top" all of the wonders and marvels of the circus are shown. There are three big rings two elevated stages, a dizzy aerial enconclave, a mile-long hippodrome track. The performance lasts two hours and a half under the big top and, in addition there is a side show which constitutes the greatest congress of wonders in circusland.

It is asserted that the only features of the John Robinson circus reminiscent of former seasons are the pink lemonade, the popcorn, the peanuts the toy baloons, the elephants and the camels.

MILESTONES ALONG THE ROAD TO PROHIBITION

In 1805 the "Sober Society" was founded at Allentown, N. J.

The blue-ribbon movement was inaugurated by Francis Murphy of Maine in 1873.

In 1842 the Independene Order of Rechabites was organized for the promotion of temperance.

The first local option legislation for the suppression of the liquor trac was enacted in Georgia in 1833.

Federal prohibition was first proposed in the United States senate in a resolution introduced by Henry W. Blair of New Hampshire in 1876.

The prohibition quction first began to take definite form as a political issue in the years immediately following the close of the civil war.

The first Massachusetts woman to graduate from a college was Lucy Stone, the famous suffrage pioneer. She worked nine years to earn money enough to go to Oberlin, then the only college open to women.

COUNTY FAIR HAS FINE PRIZES FOR SCHOOL GARDENS

America has pledged her honor to send abroad two-thirds more food than she sent in 1918. That means 20,000 tons for this year. We still have many troops across the seas to whom food must go in plenty and millions of hungry children are looking to us for the food to keep them alive The real test of the school garden army is at hand. Will we lay down our hoes when the drums cease to beat or are we workers?

It is not too late to start a school garden.

The school garden need not be large especially for the fifth and sixth grades. A plot of ground five or six feet long and three or four feet wide would make a ery nice garden for a pupil of these grades, however there is no objection to larger gardens. The real experience of gardening is an education to a child.

The Clearfield County Fair will offer the following prizes for the best exhibit of school garden products from any school garden in the county.

	1st	2nd	3rd
Fourth grade	$2.00	$1.50	$1.00
Fifth grade	2.00	1.50	1.00
Sixth grade	3.00	2.00	1.50
Seventh grade	3.00	2.00	1.50
Eighth grade	3.00	2.00	1.50
High school	3.00	2.00	1.50

THE MASCULINE ATTITUDE.

One of the immemorial wrongs which women have endured is the male habit of regarding a crisis in the kitchen as a joke, instead of what it truly is—a calamity. In this attitude we, of the older suffrage, display a wretched consistency, says Harper's Magazine. On the one hand, we yield to no one in acknowledging the home as the foundation of society. On the other hand, we regard everything connected with the economics of the home as proper subject-matter for Life and Judge. Husbands will return to their families at the end of day and clamor for sympathy against a stupid office boy. But they seem unable to understand what a sudden outbreak of sabotage in the kitchen may mean in the way of dislocation and jangled nerves. That is to say, they understand and they do not understand. The dagger drives deep enough into the soul when emergency compels man to put on a gingham apron over a basin of hot water. But the situation, though bitter, is never quite real. It ought not to be. If only the educated masculine mind were trained on the problem! Unfortunately, that educated mind must hurry downtown to grapple with the vital problem of a new office boy.

AMERICA'S IMMORTALS

NELS WOLD,
Private, Co. I, 138th Infantry.

Private Wold (deceased) was decorated for conspicuous gallantry in action near Cheppy, France, September 26, 1918. Private Wold rendered most valiant service in aiding the advance of his company which had been held up by machine gun nests. He advanced with one other soldier and silenced the guns, bringing with him upon his return 11 prisoners. Later the same day he jumped from a trench and rescued a comrade who was about to be shot by a German officer, killing the officer during the exploit. His actions were entirely voluntary, and it was while attempting to rush a fifth machine gun nest that he was killed. The advance of his company was mainly due to his great courage and devotion to duty. His home address was Kelly Lake, Minn.

MAY BE WORSE, LATER

Sandersville, Ga., May 16 (United Press.)—These are unhappy days for Georgia moonshiners. What is believed to be a world's record was made by revenue agents who captured and destroyed nineteen illicit stills within forty-eight hours.

LONODN, May 16—An exchange telegraph dispatch from Berlin today reported that Foreign Minister Brockdorff-Rantzau, following a conference with the other German delegates announced he would not sign the treaty in its present form because it's terms could not be fulfilled.

By FRED S. FERGUSON
(United Press Staff Correspondent)

PARIS, May 16—Grave danger is lurking behind the peace settlement in the opinion of persons in close touch with the general situation. The theory that Europe is too exhausted to fight does not bear out with history, as in the past, nations at the end of a long struggle are ready for more fighting than in a peace era. At the termination of the Civil war the United States defied France and Great Britain.

From Belgium and from all corners of the world comes criticism on the peace treaty, and the question of Fiume is far from settled.

Italy is playing an entirey new game Instead of pushing her claim she is cooperating in everything and is not touching the question of Fiume but she has not given it up.

Through American influence it is believed that an arrangement will be reached whereby the Ukranians and Poles will cease fighting but this is only one of the minor wars going on in Europe.

GOVERNMENT MACHINERY READY TO ENFORCE JULY FIRST PROHIBITION

WASHINGTON, May 16—Formulation of the government's policy of enforcement of the July 1st prohibition act was practically finished today. The policy includes use of internal revenue officers in reporting violations, collection of manufacturers' liquor tax on all alcoholic beverages of more than 5 per cent. alcoholic contents. Justice department agents expect to arrest brewers making 2 3-4 per cent. beer immediately after the handing down of the expected New York court decision.

FIRE WARDENS GIVEN AUTHORITY OVER FIRE HAZARDS

Police powers of the State permit the chief forest fire warden of Pennsylvania to declare special fire hazards in forests to be public nuisances and to order their abatement, according to an opinion of far-reaching effect rendered to Commissioner of Forestry Robert S. Conklin by Emerson Collins, Deputy Attorney General

The specific inquiries are as to power to order abatement of a break in a safety strip along a right of way of a railroad and the slashings left after lumber operations on lands adjoining State preserves. To order abatement of such conditions is held to be clearly within the power of the forestry authorities of the State and the fire prevention act should, in the language of the opinion, "be given such a liberal construction and vigilant administration as will best effectuate its salutary ends." It is held that it would be futile to establish safety zones and permit breaks to go unchecked, just as it would be contrary to the spirit of the various fire prevention acts to allow conditions to remain in slashings that would create fire hazards. The warden must find the hazard, definitely establish it and "proceed promptly to have the owner abate it.'

"In case of persistent refusal or neglect to remedy in a reasonable and practical way the condition complained of the chief forest fire warden should declare it a public nuisance and proceed to have it abated,' concludes the opinion.

Few visitors who stop to admire the Hall of Records, reputed to be the most beautiful public building in New York City, know that the structure was designed by a woman architect, Miss Fay Kellogg.

MAYOR OLE HANSON—Mayor Ole Hanson of Seattle Wash., is here seen in overalls and jumper tightening bolts in the keel of a ship in the Seattle shipyards. After office hours he spends his time at the yards putting in several hours at hard labor.

THE MIKADO—A PLEASANT RECOLLECTION

During the past three evenings the music lovers of Clearfield have had an opportunity to hear the singing and playing of "The Mikado" by a company of local talent whose performance has far exceeded that of anything attempted in the line of light opera heretofore. The hard work on the part of the performers is over. The tickets have all been sold. The hospital is several hundred dollars better off. We believe we speak for every person who witnessed the performance when we say that the work and sacrific of the performers is appreciated equally as much as their playing. It was indeed a creditable performance and one in which every member of the cast and choruses deserves equal commendation.

BUSINESS BAROMETER

The number of business failures recorded in any given period may not reflect the activity or stagnation of trade prevailing at the time but the record of failure unquestionably may be taken as an unfailing indication of business stability or uncertainty, as the case may be.

That being true, there should be encouragement for doubting souls in the report of financial failures last month and for the year to date as comared with those of the same intervals last year. Notwithstanding that war prosperity was at its height in 1918, the number of failures the first four months of 1919 were only 2,012, or 47 less than for the same months in 1918, and the total number of failure in the United States during April was only 462, the lowest since 1894, and 44 per cent. below the record for April of last year.—(Harrisburg Telegraph)

MASTER OF THE ATLANTIC

One of the big things that have gone almost unnoticed in the comprehensive peace settlement is the award to the United States of all the German ships seized in American ports. Their seizure when we entered the war was recognized as merely a temporary expedient—they were a war weapon to use against the enemy. Now it seems established that we are to keep these ships.

There are about 90 of them altogether, 41 liners fitted for carrying passengers and freight, and 48 cargo ships. Their value is placed at $100,000,000. They are simply taken in part payment of the money Germany owes the United States for sinking American merchantmen, destroying American cargoes, etc. The rest of the bill, amounting in all to a little less than $1,000,000,000, is covered by other German-owned property in possession of our government.

This single act of poetic justice is one of the heaviest blows struck against German ambition. It takes away Germany's strongest weapon of economic conquest, her Atlantic fleet and along with the seizure of Great Britain and other Allies leaves her almost stripped of commercial sea-power.

Germany before the war was the leading factor in the transatlantic passenger trade. Now the United States steps into Germany's place. Great Britain has so much to do in restoring her transportation lines in other trade routes especially those of the Orient that she cannot give much attention to the Atlantic routes for some time.

These German vessels are said by experts to set the American shipping program ahead ten years toward world supremacy on the sea. In a few years, at the present rate of growth, we shall have one-third of the whole world's shipping. In the meantime we are masters of the Atlantic. The ocean between America and Europe has become an American pond.—DuBois Courier.

A SUGGESTION ON MEMORIAL DAY SERVICES

Editor of Progress:

Your editorial of last evening relative to a fitting tribute to our soldier dead of the Great World war is timely. Recognizing that but few of them are buried here but for the present rest on foreign shores, it would be naturally impossible to decorate their last resting place or hold fitting services.

May I offer as a suggestion the following idea. In some appropriate place—my suggestion would be in the park—erect a plain, temporary structure in the shape of a monument, sufficiently large to permit of enrolling thereon the names of the soldiers, sailors, marines and nurses who have made the great sacrifice. This would afford a central place upon which could be laid the floral tributes, and at which point appropriate ceremonies could be held, and, for all those who desire to pay their respect to these sons and daughters of Clearfield, a point of which they could repair.

A structure such as I suggest could be made of plain material, merely temporary in character, and upon which could be enrolled the names of the ones to whom the tribute is doe. Our returned soldiers, I am confident, would heartily endorse such a poposition and would paticipate in the ceremonies. If it was designed, these ceremonies could be held at an hour subsequent to the services which are regularly held for the soldier dead of our earlier wars.

Respectfully,
JOHN M. BAIN

BAPTIST CHOIR ATTENTION

The choir of the First Baptist church will practice in the church Friday evening at 7:30. A full turnout is requested.

Dress Warm And Keep Feet Dry

Tells Rheumatism Sufferers to Take Salts and Get Rid of Uric Acid

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and above all drink olts of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneysy to filter this acid from the blood and cast it out in the urine, the pores of the skin are also a means of freeing the blood of this impurity. In lamp and chilly, cold weather the skin pores are closed thus forcing the kidneysy to do double work, they bcome weak and sluggish and fail to eliminate this uric acid which keeps accumulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tabiespoonful in a glass f water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulatng the kidneys to normal action, thus riding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

What We Do

Nearly everyone has business matters that require the attention of an exerienced person. The Clearfield Trust Co. has many departments. It acts as—

Agent, attending to your business as your representative.

Collector, collecting interest, dividends coupons, rents, or other debts due you.

Receiver, holding in trust the affairs of a bankrupt estate.

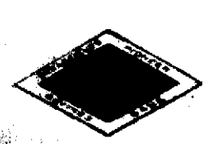
Administrator, managing estates of those who leave no will.

Executor, seeing that the terms of your will are carried out.

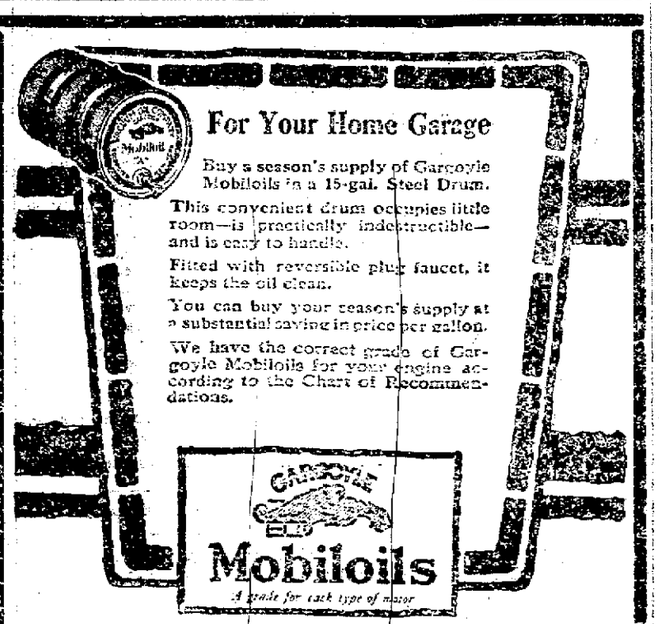
Trustee, holding your property in trust until final settlement.

Banking, conducting a strong Savings and Commercial Mortgage and Loan Banking Institution.

A complete institution, do business with us.



THE CLEARFIELD TRUST CO.



CLEARFIELD HARDWARE CO.
125 Market Street Clearfield, Pa.

POULTRY FACTS

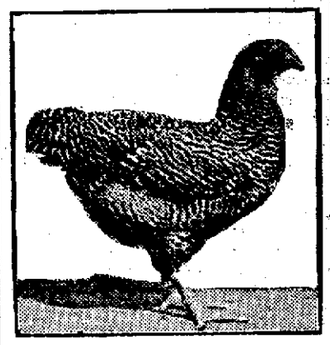
GOOD CARE FOR SETTING HEN

Attention Given Fowl Plays Important Part on Number and Condition of Chicks.

(Prepared by the United States Department of Agriculture.)

The kind of care and attention given a setting hen during the process of hatching eggs plays an important part on the number and condition of the chicks when hatched. See that the hens are made comfortable on the nest, allow them to come off only once a day to receive feed and water.

If there are any that do not desire to come off themselves, they should be taken off. Hens usually return to



A Good Type to Select for Laying.

their nests before there is any danger of the eggs chilling, but if they do not go back in half an hour in ordinary weather, they should be put on the nest. Where a large number of sitters are kept in one room it is advisable to let them off in groups of from four to six at a time. The eggs and nests should be examined and cleaned, removing all broken eggs and washing those that are soiled; in the latter case the soiled nesting material should be removed and clean straw added. Nests containing broken eggs that the hen is allowed to sit on soon become infested with mites and lice, which cause the hens to become uneasy and leave the nest, often causing the loss of valuable sittings of eggs. In mite-infested nests, the hen, if fastened in, will often be found standing over rather than sitting on the eggs. Many eggs that are laid in the late winter and early spring are infertile. For this reason it is advisable to set several hens at the same time. After the eggs have been under the hens from five to seven days, the time depending somewhat on the color and thickness of the shells—white-shelled eggs being easier to test than those having brown shells—they should be tested, the infertile eggs and dead germs removed, and the fertile eggs put back under the hen. In this way it is often possible to put all the eggs that several hens originally started to sit on under fewer hens and reset the others. For example, 30 eggs are set under three hens at the same time, ten under each. At the end of seven days we find on testing the eggs from all the hens that ten are infertile, which leaves us 20 eggs to reset, which we do by putting them under two hens, and have the remaining hen sit over again after she has set only seven days. In this way considerable time can be saved in one's hatching operations.

DOULTRY NOTES

The pullets and the year-old hens are the best egg producers.

* * *

Market all cockerels not wanted as breeders at as early a date as possible.

* * *

A "chicken" is a young fowl, usually under six months of age. It becomes a "fowl" after that period.

* * *

One pound of feathers can be secured from five ordinary fowls, or from ten ducks, or from four geese.

* * *

Whole corn is the proper food for sitting hens. They should have green food, grit, and pure drinking water.

* * *

Eggs for hatching should be carefully selected, well-formed, with good shells, and kept in a temperature of 50 degrees to 60 degrees F.

* * *

The chick worth having is the chick that releases itself from the shell with vigor, life and vitality; that comes jumping, as it were, into life.

* * *

A time-saving plan is to set hens in pairs, and giving the chicks hatched from both to one hen, allowing the other hen to go back to laying.

* * *

In salting the mash dissolve sufficient salt in the water with which the mash is to be moistened. In this way the salt will be more evenly distributed. An ounce of salt is about right for 100 fowls.

Campaign For World Service Approaching Its Climax in Centenary Financial Drive

Methodism Is Mobilized To Go "Over The Top" In Greatest Project For Humanity Relief Work.

Church Ready For Week Of Intensive Financial Canvass.

"Christianize A Nation And You Democratize It," Says Eminent Divine.

BISHOP WILLIAM F. McDOWELL

Methodism in its fullest strength is now mobilized for the success of the greatest single project ever undertaken by the Church of any age. The great Centenary campaign in celebration of the hundredth anniversary of the first Methodist mission, is nearing its climax, with one of the principal objectives, the intensive financial drive during the week May 18 to 25, for $105,000,000 for world relief and educational endeavors.

Reconstruction projects outlined by the Centenary survey call for huge expenditures in cities and towns all over the country. Large sums are to be spent in localities embraced within the Washington area, comprising Central Pennsylvania, Maryland, Delaware, District of Columbia, Virginia and West Virginia. The welfare of every community is vitally linked up with the gigantic program of social and community betterments.

Hundreds of new churches are to be built, community centers are to be established, and remodeling projects are to be put under way. New hospitals, institutions for the relief of the poor ministerial additions, rural improvements are some of the items that stand out in a schedule of hundreds of benevolences outlined by the Centenary survey. Every town will reap substantial benefits under the Centenary program which aims to spread the good influences of Christianity.

All over this territory every Methodist Church organization is a veritable beehive of activity. Preliminary to the drive for humanity dollars, pastors have organized their congregations into units, and appointed team captains to prosecute the financial canvass. In charge of the financial drive in every church is a group of ten leading laymen for every hundred members.

"Every day is Sunday at our church now," said one preacher, who added that "I took my coat off three weeks ago and haven't had a chance to put in on since. The laymen of my church won't let me. They're hustling so hard, that if I don't hustle too, I'll get lost in the crush." What this minister said is typical of the interest of preachers all over the area. Ministers find their congregations aroused to a sense of the after-the-war responsibilities that face the church.

In addition to the pastor and his lieutenants, active as campaigners for the Centenary are the Methodist minute men. Sixty thousand minute men, including leading church laymen, are carrying the Centenary appeal to churches throughout Methodism. In nearly 1,800 churches in the Washington area, 3,000 men are engaged as minute men, delivering Centenary addresses.

Methodists in this section have set the pace for other districts by conducting a preliminary campaign so as to insure maximum results in the "every member" canvass. In many churches small groups of members have pledged the full quota set by the Centenary. In practically all parts of the Washington area, churches have so perfected their Centenary organizations that the prediction is confidently made by Centenary leaders that the area will go "over the top" with its $7,000,000 quota of the big humanity fund.

Bishop William F. McDowell, of Washington, D. C., who presides over the Washington area, in an official statement, reviewing the Centenary campaign, declared that the big fund will be fully subscribed. Bishop McDowell said that reports from all parts of the area indicated members everywhere are responsive to the world's call upon Methodism to aid humanity in the present world crisis.

The Bishop was extremely optimistic that many districts would far exceed the figure set for them. "No church is failing. Several conferences have gone "over the top." Several districts have gone "over the top." Many individual churches have gone over. In every case where everybody has marched up in line, the success has been not only prompt but perfect.

"The features of the Centenary movement are perfectly well understood. They involve prayer for the world, the gift of life to the world, and taking God into partnership with our possessions."

Bishop McDowell has called upon the 300,000 members in his jurisdiction to respond to the Centenary appeal and respond to it with promptness. The bishop's message, which will be read by pastors and their congregations, carries this admonition:

"Get ready for the Centenary finance campaign by prayer. Get ready for it by study. Get ready for it by a careful adjustment of your finances so that you can meet the situation when it arises with perfect ease."

Discussing the objectives of the Centenary Movement, Bishop McDowell said:

"The Centenary is the movement by which the Methodist Episcopal Church recognizes the beginning of its missionary activity one hundred years ago by plans and purposes which it hopes may be somewhat adequate to the new duties and responsibilities of the church in the world. One hundred years ago a converted Negro, John Stewart, by name, went to the Indians in Northwest Ohio to preach to them. Today the church in same spirit, but in wholly different conditions is proposing to re-alien itself with its tasks at home and abroad in a very large fashion.

"The original survey called for sixteen million dollars per year for five years for work at home and abroad, equally divided. We have added to that five millions for immediate war reconstruction in Eurone and American and other welfare. For other purposes has the movement expanded until we speak of $105,000,000 as our immediate goal, which, of course, is $25,000,000 per year."

Men who have achieved prominence in church work both as clergymen and laymen are leaders in the Centenary campaign.

John T. Stone, of Baltimore, Md., one of the dynamic forces of Methodism is the chairman of the National Centenary campaign committee. John L. Alcock, of Baltimore, leading Methodist layman, is Centenary chairman for the Washington area. Administrative direction of the Centenary in the area is in charge of Rev. Dr. Morris E. Swartz, well known as a leader in the church and for many years pastor of churches in Pennsylvania and other States.

The financial campaign in the area is being directed by Elmore B. Jeffrey, of Baltimore, a conspicuous figure in the business world and a man of large vision in financial affairs. Dr. S. M. Bard and Walter E. Dorland are the area financial campaign directors. William C. Ballard, active Methodist churchman of Baltimore, is the area treasurer. Assisting Executive Secretary Swartz at the Washington area headquarters are a group of specialists attending to definite phases of the working organization.

The campaign of the Centenary is being conducted with business-like precision, with a total absence of the hit-or-miss methods which have marked church projects in other years. Eminent divines who lead the movement declare that the objectives mapped out are bound to be successful.

"Christianize a nation and you democratize it," one eminent divine said. It is this idea that is stimulating the Centenary movement, which is not only nation-wide, but world-wide in scope. The Centenary will give a new meaning to the word religion, for in the purposes of the Centenary Christianity is made truly practical.

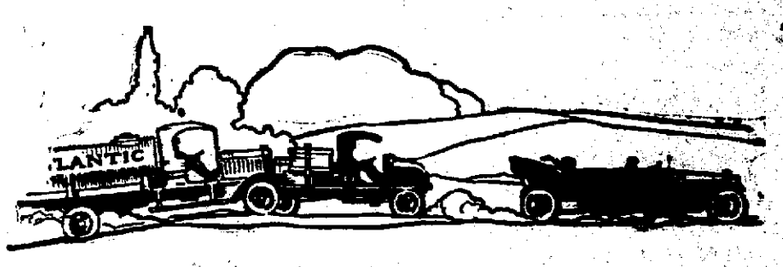
Millions To Be Spent To Decrease Illiteracy.

Probably the greatest educational campaign ever undertaken by a church is that now being launched by the Centenary Movement of the Methodist Episcopal Church and the Methodist Episcopal Church South, which together plan to raise $105,000,000 for missionary work, at home and abroad. More than $14,000,000 will be spent on schools and teachers for the untaught children of the world, and instruction for grown people who had little or no schooling in their youth. Of this sum a considerable amount will be spent on educational work in our own United States.

Of the foreign-born white people in this country more than twelve per cent. are illiterate; of the Negroes, over thirty per cent.; of the Chinese, over fifteen per cent.; of the Japanese, over nine per cent., and of the North American Indians, over forty-five per cent. In many cases, especially in that of the older foreign-born, the Church can teach these people to speak English, to read and write, and to understand American customs and laws, when the public school does not reach them.

Oregon passed a prohibitory law in 1843 and repealed it five years later.

The National Woman's Christian Temerance union was formed in 1874.



Correct Volatility

Atlantic Gasoline is lively. You don't have to coax an Atlantic-fed motor to take the spark. No, not even when the car's been standing.

Just fill your tank with Atlantic Gasoline. Hold out your clutch, throw on your ignition and press the starter-button.

A few revolutions of the crank-shaft and—F-r-r-r! There you are—all set for a spin; carbureter breathing freely; motor purring softly.

Step on her! . . . Eyes front. Keep your foot near the brake. Man, that's *Atlantic* whizzing you along the asphalt like there wasn't any road there a-tall.

And this goes for trucks, too. Powerful, volatile Atlantic Gasoline will cut your hauling-costs to the bone. That's why most trucks use Atlantic and nothing else.

You try it.

TWISTED MAZE OF CIRCUMSTANCES IS HEARD BY JURY

(Continued from Page One)

The witness then said "that to have sent a bullet through this board at the angle and direction of this bullet hole the gun would have had to be at least ten feet above the floor level at the back of the barn and in front of the hack 6 feet 3 inches.

This is a vital point in the prosecution's case as they contend the bullet hole in the board was made by the bullet Ralph Ardary shot through his hat following the shooting of Lawrence Ardary.

Sheriff Gorman was recalled and examined further r egarding his search for bullet holes in the barn but said he found no other, but was satisfied from the appearance of the board that the bullet hole had been recently made.

The District Attorney then offered in evidence the hats of Ralph and Lawrence Ardary, the gloves worn by each, the barrel and board, and the revolver and shells were offerd in evidence as a whole and admitted.

Mr. Van Valzah was recalled and asked how he made his measurements and said the Sheriff had procured an iron rod thirty inches long which he put through the hole from the outside.

Sheriff Gorman was recalled and asked concerning the rod and at the request of the District Attorney produced it. It was then placed in evidence.

The Comomnwealth rested at 5:15.

The prosecution had their evidence in chief all in at 5:15 and District Attorneyy Arnold announced that the Commonwealth rested.

Mr. Liveright for the defense then arose and stated that he did not care to open his case for the jury so near to the time for adjournment and Jugde Bell stated that in a case of the gravity of this it was hardly fair to ask that the defense proceed under the circumstances and directed that Court be adjourned until 9 o'clock Friday morning.

PITTSBURGH CARS STILL IDLE

Pittsburgh,, May 16.—With both sides standing firm there was no change today in the Pittsburgh street car strike situation. As far as could be learned the carmen and receivers of the Pittsburgh Railway Company have made no move toward a settlement.

TRANSPORT PEERLESS NEARS PHILADELPHIA

Philadelphia, May 16.—The transport Peerless today was at anchor near the Delaware Cape according to debarkation authorities and will be unable to proceed to this port until the fog lifts. The vessel carrying 108th Field Artillery, 108th Machine Gun Battalion and a detachment of Co. M, 100th Inf. 28th Div. arrived off the cape soon after 3 a. m. today Should the transport be able to start before noon it could not be docked here until after six tonight.

Three Times A Week For Three Weeks

After the long winter months, too much rich food and too little exercise, practically everyone feels the necessity for a good Spring Tonic and Blood Purifier. The very best spring medicine you can take is the king of tonic laxatives—

CELERY KING

Three times a week for three weeks, brew a cup of this purely vegetable laxative tea and drink it just before retiring. Gently, yet effectively, it will drive out all impurities and not only make you feel better, but look better, right away, giving you a sweet breath, clear skin and a healthy appetite.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, spitting headache, stuffy from a cold foul tongue, nasty breath, acid stomach, can, instead feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole o fthe internal poisonous stagnant matter.

Everyone whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach liver kidneys and bowels the previous day's indigestible waste sour bile and oisonous toxins; thus cleansing sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an emty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, acids and solids, and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the hot water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are troubled with constipation, biliousness, sick stomach, headache, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

CLARK STAFFORD HOME

This morning a full grown young man dropped into the Progress office and introduced himself as Clark Stafford. We rubbed our eyes and then came to a realization of the fact that it was the same kid who used to deliver The Progress in that section of Clearfield on the east side of Third street, below Market. Clark was only a kid when he left Clearfield with Company L, the Pittsburgh company which was located here for some time. He escaped with a whiff of gas and had a great many gruelling experiences. Clark reports that only thirty five of his comany came back of the outfit which went across. He tried to reenlist but was rejected for the regular army.

The suffrage victory in Iowa has increased the number of women in the United States eligible to vote in next year's presidential eletcion to approximately 15,500,000 or more than one-half of the total number of women of 21 years and over in the entire country.

NEWS OF OUR NEIGHBORS

At the close of the talk by Lt. D. B. Hawkins in the Lutheran church this evening, refreshments will be sold in the church parlors. The money realized will go to the church fund. All are cordially invited.

The 1919 Senior class play "The Masonic Ring" a farce in 3 acts was played before a large and appreciative audience Wednesday evening, May 14. Fred Robinson, the director had put lots of pep into the training of the caste and it showed in the manner in which the different roles were played. The specialty stunts pulled off between the 2nd and 3rd acts were clever and the musical programme by Bressler's orchestra was well worth hearing. A tidy sum was realized which the Seniors will give to the H. S. library.

The dance held last evening in the "Moose" hall by Paul Flynn, new Benedict, was well attended and thoroughly enjoyed by the guests, a great many of whom came from Grampian and other nearby towns.

Misses Lottie Bixler and Hildo Anderson attended the performance of the "Mikado" at Clearfield, last evening.

Mrs. H. G. Gucliker and little daughter Helen, of Altoona, are with the former's parents Dr. and Mrs. G. C. Jenkins with whom they will spend the summer.

Robert Masters, representing the Moxley company of Pittsburgh, called on friends and customers yesterday.

The bicycle given by the carnival to the most popular boy in town and which has been on exhibition at Daugherty's hardware store, has been won by George Bressler who will have his popularity put to a severe test if he fails to give all the other kids a ride on his new possession. The Victrola also on exhibition at Kirks Jewelry store as one of the carnival prizes which would go to the holder of a certain lucky number is still unclaimed. Go to it, you fellows. Just think what a lovely gift that Victrola would be for her, and all for the small sum of ten cents at that. Remember, it helps the Rescue Hose and Ladder boys.

Several of the towns musical stars took part in the concert given at Grampian last evening.

NOTICE OF APPLICATION FOR CHARTER

Notice is hereby given that application has been made t the Public Service Commisison of the Commonwealth of Pennsylvana under the provisions of the Public Service Company Law, by Penn Electric Service Company and Citizens Light, Heat & Power Company of Pennsylvania for a Certificate of Public onvenience evidence the Commission's requisite approval of the merger and consolidation of said companies each with the other. SERG. MAYNARD REED HOME

Sergeant Maynard Reed has arrived at the home of his parents Mr. and Mrs George B. Reed on South Second street, having recently been mustered out of the U. S. Service. Sergeant Reed was with a hospital unit which trained at Camp Crane, Allentown, and was with the first American outfit to be sent to Italy where he saw much service, later going across to France and back home.

SALVATION ARMY VALIANT IN WAR

Having Served Gloriously in the Trenches, Is Coming Back From Overseas for Peace Time Activities.

ASKS HOME SERVICE FUND.

National Campaign to Replenish Resources Depleted by Long and Direct Contact Services With Our Boys Scheduled for May 19-26.

New York (Special).—Like the 2,000,000 American boys whom it served so gloriously in the trenches of France, the Salvation Army is coming back from overseas, ready to put aside its khaki uniform of war service, don again the "Civvies" and embark once more on its normal peace time activities.

And, just like those doughboys, the Salvation Army has come out of the war victorious and with citations for bravery, decorations for gallantry under fire and golden chevrons indicative of honorably won wounds on its arm. The victory which the Salvation Army has won is a victory over the obstacles that lay before it in its purpose of efficient service of the fighters of Pershing's army. Its citations are the thanks, cheers and prayers of 2,000,000 doughboys. Its wound stripes are rightfully golden of hue, for they typify the unselfish way in which the Army threw all its resources—financial, spiritual and moral—into the effort to help the American soldiers in France.

Now the Army is asking the people of America to give it concrete evidence of the gratitude which has been so loudly, and so willingly expressed. From May 19 to 26 the Salvation Army will conduct in the United States a campaign to raise $13,000,000 for its Home Service Fund. The money is needed both to recoup the fortunes of the Army, shattered by its long service of the soldier and to permit it to carry on the work it has always done on the larger scale which the public now demands. Raising the money by this means, the Salvation Army explains, will eliminate, perhaps permanently, the necessity for the senseless solicitation of funds which has been a bugbear to the Army and the public alike. It will permit the workers of the Army, who, forced to devote more than half their time to gathering money, were in consequence only half efficient in their evangelistic and social service work, to devote all their time in future to the duties for which they have been trained.

The amount of the fund has been determined exactly and logically by means of budgets prepared locally by workers of the Salvation Army in all parts of the United States.

Already headquarters for the campaign have been established in New York City. A ready response in encouragement and cheering wishes for success has been heard from all parts of the country. Men and women prominent in all walks of life have volunteered their services as active participants in the drive. The Army's 2,000,000 loyal rooters—the boys who went overseas in khaki—are all lined up ready to help. The Army not only helped them over there, but it found jobs for many of them after they had been mustered out of service, helped them get the civilian clothing that was necessary if they wanted to take those jobs, fed many of them, gave them shelter and furnished them with transportation to their homes.

For the war service of the Salvation Army is still under way. Its workers are still, many of them, in France, and its huts, clubhouses and hotels for the reception of the boys returning from abroad are in full swing here.

Neither, the Salvation Army asserts, will its war work be abandoned until the last boy is out of the khaki of the army or the blue of the navy. The larger activities which necessitated the coming campaign will exist and be financed independently of the service of the fighters from abroad.

CARDINAL GIBBONS ENDORSES S. A. DRIVE

Venerable Churchman Expresses Hope That $13,000,000 Will Be Raised.

The following letter was addressed to former Governor Whitman of New York state by Cardinal Gibbons:

"Honorable and Dear Sir—I have been asked by the local Commander of the Salvation Army to address a word to you as National Chairman of the campaign about to be launched in behalf of the above named organization. This I am happy to do, and for the reason that along with my fellow American citizens I rejoice in the splendid service which the Salvation Army rendered our soldier and sailor boys during the war. Every returning trooper is a willing witness to the efficient and generous work of the Salvation Army both at the front and in the camps at home. I am also the more happy to commend this organization because it is free from sectarian bias. The man in need of help is the object of their effort, with never a question of his creed or color.

"I trust, therefore, your efforts to raise $13,000,000 for the Salvation Army will meet with a hearty response from our generous public. Faithfully yours,

"J. CARD. GIBBONS."

In 1826 the American Society for the Promotion of Temperance organized in Boston.

Special Demonstration Of The World's Finest Kitchen Cabinet

Come In and See The Helper In The Kitchen That You Can Keep

A NAPANEE Dutch Kitchenet is a servant in the kitchen that you can always keep. This means something in these days when so many more women do all there own work. Help, at one time easily obtained, is no difficult to get. Thousands of women have been so bothered with the eternal "servant problem" that they welcome the relief from it which has been afforded them by

The Napanee Dutch Kitchenet

This triumph of ingenuity has so systemized women's work---so elimanated the drudgery---as to make them independent of maids and cooks. Many women declare that they enjoy doing their kitchen work now that it is simplified and made so much easier by the Dutch Kitchenet.

Do Not Deny Yourself This Labor Saver

Do not, for the sake of a few dollars, deny yourself the benefits to be derived from having a Napanee Dutch Kitchenet in your home every day in the year.

It is really a beautiful piece of furniture, and is more useful and convenient than it is attractive. You need not wear yourself out drudging in an improperly equipped kitchen. We will be glad to show you the many special features of the Napanee Dutch Kitchenet and, if you so desire, arrange terms by which you can put one in your home immediately and begin to enjoy it. Prices as low as ..... **$25.00 up to $55.00**

Napanee Dutch Kitchenet Special Features

Selected Oak Exterior
Satin Golden Oak Color
White Maple Interior in Base sections
White Enamel Interior in Upper Cupboard.
Rounded Corners and Edges
Aluminum or Porcelain Sliding Table
Large Kneading Board
Block for Food Chopper
Linen Drawer Partitioned
"Fill-Easy" Flour bin
Ventilated Non-rusting Metal Bread Box
Sliding Bottom in Base
Smooth Dust-proof Curtain
Close-fitting Doors and Drawers
Will not warp, swell or shrink.
Absolutely sanitary and easy to clean
Scientifically ventilated Cooling Compartment in Base
Cheerfulness that starts in the kitchen soon finds its way all over the home

SPECIAL OFFER FOR ONE WEEK ONLY

$1.50 Hardwood combination pantry stool and ladder free with every cabinet purchased during this demonstration.
Factory demonstrator in charge. Do come and see them.

LEITZINGER BROTHERS

Comb Sage Tea Into Gray Hair

Darkens Beautifuly and Restores its Natural Color and Lustre At Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipt at home, though, is trouble some. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of mess.

While gravy, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just dampen a sponge, or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another aplication or two your hair becomes beautifully dark, glossy soft and luxuriant and you appear years younger.

Why You Should Use The WATTS PLANTS

BECAUSE They are grown from the highest grade seed, strongest in vitality and producing qualities.

BECAUSE They have been grown in soil and boxes that have been thoroughly steam-sterilized, no disease or germs go with them.

BECAUSE They are not soft and tender, but stocky, low-built, hardened and rugged.

BECAUSE They are all Transplanted, have strong root systems and are far superior to the low priced seedlings so often sold.

BECAUSE They are sold in small boxes, soil and all, and can be kept indefintely if the garden is not ready.

BECAUSE They can be planted in the garden with large chunks of soil attached to the roots.

BECAUSE they embrace the varieties of cabbage, tomatoes, celery, cauliflower, peppers, pansies, asters, etc., best adapted to the soil, climatic and market conditions of this region.

BECAUSE They are sold at reasonable prices by The Workman's Stores, Clearfield, and by dealers in most of the towns of the county.

SCHOOL NOTES

The H. S. orchestra is to go to the Junior High to play for the comedy "The Drum Major". This is the play the Eighth grade has been working on for their commencement May 23d.

She'll be here a week from Monday. Who? You say, why didn't you know the Senior class is resenting "The Arrival of Kitty" then?

Copies of The Breeze were placed on sale Thursday after school. It's a "regular" magazine.

Hear Pontius sing a week from Sunday.

Chapel exercises have been few and far between so students took it upon themselves to have chapel Thursday noon. Alythough only half of the student body was there enough noise was made for a regiment.

Signs of a Sophomore banner were seen around the hall but it was kept fairly well under cover.

Tuesday the Senior class raised a banner on the left tower of the High school. When the Junior class members viewed this there was blood in their eyes. They had been taught since entering High school that this kind of spirit was a thing of the past but what were they going to do about it? They didn't want to tear it down and break the rules. They didn't even try. There is an unwritten law in the Clearfield High school that the Seniors should set the examples—the Juniors knew this and prepared to carry out the example of the Seniors. They did.

The lower classes upon entering the door Thursday morning rubbed their eyes in astonishment. Were they at a Boardman wrestling bout, no, but what was that fellow doing up on the step ladder? Oh, just trying to take down the 1920 banner.

Then the class war was interrupted by school authorities and each class was asked to take down its banner. After this was done they were informed that there would be no Junior-Senior banquet. It's a cruel wourld.

JURY SYSTEM MUST BE UPHELD

Clearfield, May 15th
The Clearfield Progress

I want to commend you for the editorial in today's issue entitled "What Manner of Men are These". It expresses my thought and that of a number of our right thinking citizens. It apears to me it is high time that our people should learn something of what good citizenship is. And right here seems to me points to the necessity of some simple rudimentary instruction on these duties in our public schools. So that the rising generation may be saved from such exhibitions as we had here this week. There has been nothing offered that can take the place of the jury system, but it must be safeguarded by intelligence and loyal patriotism if it is to be maintained effective.

If Back Hurts Begin On Salts

Flush our Kidneys Occasionally If You Eat Meat Regularly

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleelessness, bladder disorders come from sluggish kidneys.

The moment yoyu feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys wil lthen act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generatoins to flush clogged kidneys and stimlate the nto activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink which all regular meat eaters should take now and then to keen the kidneys clean and the blood pure, thereby avoiding serious kidney complication.

Gossip for Tonight's Tea Table

Mr and Mrs. E .L. McCracken of of Madera, were in town attending to business yesterday .

Lou Cardon and Hazard Chase spent last evening in Houtzdale.

Miss Madeline Mignot of Frenchville was shopping in town today

Urges Everyone To Quickly Get On Water Wagon

Drink Glass of Hot Water Before Breakfast to Wash Out Poisons

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a head ache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for one week.

Before breakfast each drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless cans of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost veryy little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, billious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured will have them both looking and feeling better in every yway.

WORD FROM THE 80TH

We are in recipt of a post card from Frederick Kittelberger, son of Postmaster Kittelberger of Curwensville mailed at Le Grand Luce, April 25th, in which he says they expect to leave for Brest within a week and hop to be in the States shortly after May 15th. The post card showed the location of the 305th Ammunition Train, in which so many Clearfield county boys are located.

BROCKDORFF-RANTZAU QUOTED AS NOT GOING TO SIGN THE ALLIED PEACE TERMS

STATE EVIDENCE ALL IN ARDARY DEFENSE OPENS

TWISTED MAZE OF CIRCUMSTANCES IS HEARD BY JURY

In this column we take up the proceedings of the Ardary trial where we left off yesterday afternoon.

Sheriff Gorman was recalled and asked concerning a conversation he had with Ralph Ardary at the Clearfield Hospital the day following the shooting. The defense objected to the testimony but the objection was overruled by the Court. The witness said Ralph told him about inviting Lawrence over to help him break the colt, that Lawrence arrived about 1 o'clock and he called him three times to come upstairs and help him with a barrel he got stuck within the stairway; that he saw Lawrence coming out of Georges room; that when they went to the barn and were working at the hack when Lawrence asked to buy the colt and on his refusal to sell said he would get the colt, Cora and the farm, and with that started to shoot at him. One bullet went through his hat and when he had thrown Lawrence down he shot him through the arm when he broke loose and fled downstairs and fired the third shot when he was going through the horse stable. When asked where the bullet which went through the hat could be found in the barn Ralph told him in the rear of same and when he arrived at the barn he found the bullet hole in the board and removing same from the barn properly marked it and brought it to the District Attorney's office. He was then asked regarding the barrel Ralph brought from the attic and said he secured it and brought it to the District Atorney's office. The board was brought into court and after the bullet hole was shown to the jury the board was admitted in evidence. The course of bullet through the board, the prosecution will contend, precludes its having been fired by Lawrence Ardary, accepting Ralph's version of the affair.

George Ardary, brother of Ralph, was called to identify the barrel which Ralph brought down from the attic and told of putting it in the granary at the request of Sheriff Gorman.

The Sheriff was again recalled and identified the barrel by his initials which he had placed on the barrel when he got it. The barrel, a small one in which sweet potatoes had been shipped, was then placed in evidence.

H B. Gaulin, Court Stenographer, who had taken Ralph Ardary's statement at the Clearfiled Hospital for the District Attorney, was placed upon the stand and identified his stenographic notes of that statement, which was then read to the jury.

This statement contains much that has already been published about the affair regarding the happenings leading up to the fatal day, one of the chief points of variance being in regard to the barrel. In the statement read he says he could easily have carried the barrel down himself but just called Lawrence to help him, he did not know why.

Engineer Van Valzah was then recalled to testify concerning the measurements of the board in which the first hole was located and testified from his notes that it was 38 3-4 inches from the floor and six feet 6 and five eighth inches from the side of the mow. The hole goes down and to the left from the inside of the barn ,the sides of the hole were clean He was then asked rearding the rise of the bullet from where it was fired to where it entered the board. He said the rise was one and eighth-tenth inches to the foot. It was 16 feet from the front of the barn.

(Continued on Page Four)

ACCUSED TAKES THE STAND AND TELLS HIS OWN STORY

When Court called at 9 o'clock Mr Liveright, of Counsel for the defense, arose and presented the defendant's side of the case to the jury. He told the jury they would prove Ralph Ardary's innocence out of his own mouth as they proposed putting him on the witness stand to recite his story as told to District Attorney Arnold at the hospital. He detailed the story of Ralph's visit to Lawrence's home to invite him to come over to help break the colt, the episode of the barrel in the attic stairway and recited that Ralph was constitutionally timid and nervous, leaving the inference that Ralph called Lawrence to go to the attic with him for companinship more than help. He told the story of the shooting with minute detail and all of the circumstances following and closed by stating they would show by personal testimony that Lawrence Ardary had spent twelve nights at the George Ardary home following his death and was not only familiar with the premises but knew George had a revolver was opposed to George coming to the farm to live, and also that he had an obsession to possess the colt in question and was infatuated with Cora Ardary and desired to possess her; that he was a man quick to anger and often used his right hand to shoot and to work with otherwise. Also that they would explain the bullet hole in the board by showing that bullets fired from the same distance into a piece of the very board in evidence took the same course as the bullet Ralph alleged went through his hat. Mr. Liveright occupied thirty minutes in his presentation and following its conclusion began the taking of testimony by calling City engineer E. W. Hess to the stand to identify maps and plan of the Ardary house, barn and grounds made by him for the defense.

Ralph Ardary was called and sworn at 10:30. He said he was 23 years of age last October and lived at the George W. Ardary home with his sister Cora and brother George W., Jr. He said he was a farmer in summer time and dug coal in the winter. His mother died seventeen or eighteen years ago; also had three other sisters;quit school at 8th grade when he was 15 ,and had always been afflicted with stoppage in his speech; said they had five horss and six head of cattle on March 11th Lawrence Ardary was his cousin. Said his cousin had come to their home following his father's death without invitation and stayed there for twelve days; every day he would tell Ralph he wanted the colt and would say so several times a day. After Feb. 9th he would curry and work with this colt for two hours at a time; he slept with Ralph while he was in the house; never owned a revolver; Lawrence often ate there and helped with the chores; saw Lawrence get up one night and look through the bureau drawers in their room; quit staying there when George came back after his father's death, but was there several times during the day after George came but never stayed at night; last time he talked with Lawrence about the colt was at 9 o'clock on the morning of the shooting when he went over and asked him to come and help hitch up the colt; he asked Lawrence to help because he was afraid of the colt; he stayed at his uncle's home until 10 o"clock after Lawrence and his father drove away; he then called Orvis Smith to help with the colt, this was about 10:50; he said he didn't know whether he could come or not and he called him again at 12:30; had dinner at 12 o'clock with his sister Cora; Lawrence came at a quarter of one and they sat in the kitchen awhile; had been up in the attic with his sister in the morning, and asked her to go along because he was kind of scared and wanted company, he was always nervous; day before horse had smashed the feed box and he saw barrel in the attic he thought would serve his purpose; it had paper in it and he didn't bring it down. After dinner while talking to Lawrence in the kitchen he asked Lawrence to go with him to the attic to get the barrel, Lawrence made no reply, and when on the way up he called Lawrence again but got no answer; he continued to the attic then took the paper out of the barrel and started down, slipped on some tacks at the edge of a step and the barrel rolled down the stairs and lodged at the door; as he was picking up the barrel he saw Lawrence come out of the bed room, and without speaking start down stairs; he followed down with the barrel and Lawrence went on out to the barn while he, Ralph, started to get a bucket of coal at the coal shed and after taking it to the house, took the barrel to the barn and then went up the steps to the barn floor, and found Lawrence standing by the door at the head of the stairs; he asked him to help take the top off the hack and getting a wrench started to loosen the rods; he had taken two burrs off when Lawrence asked for the wrench and unscrewed the burrs on his side of the hack; Lawrence then came around the hack and said "get to hell out of the road" and proceeded to loosen the top on his side, and afterward they took the seats off the hack and set them between the hack and haymow and then they lifted the top off and set it on the left of the front dor; he then walked over to put the burrs on the rods and while stooping over Lawrence asked him if he was going to sell him the colt, he said no and Lawrence then pulled the gun and shot through his hat; He was facing the left hand haymow and Lawrence was at the side; the the shot was fired he struck up Lawrence's hand and then grabbed him and threw him down on a pile of hay and Lawrence then shot him through the arm; he then wrenched loose, got up and ran down stairs through the horse stable; he ran out and jumped over the gate or door into the barnyard and ran toward the house. His arm was paining him and he walked onto the back porch and into the kitchen where he met his sister Cora. After he had started to run from the barn and had reached the door of the barnyard he heard another shot, seemingly from the barn floor. When he entered the house he told Cora" Lawrence tried to kill me; he then took off his jacket and sweater to have his wound dressed.

Cora went to the telephone and called the doctor and neighbors. Orvis Smith being first to respond. He did not go back to the barn but stayed about the house until 4 o'clock, when he started for the hospital with his brother George in a buggy and at the stone house farm was taken in a car to the hospital where the bullet was removed from his arm about 6 or 7 o'clock; stayed there three weeks arm still pains him. Remembered the hat he had on but did not recall how he wore it that day. Asked concerning George's revolver, said he had handled it and snapped it several days before and that it was kept in their bedroom in the bureau, the drawer of which was open, sometimes it would be on top of the bureau; at night it was kept on a chair alongside the bed and returned to the bureau in the morning; this was in the room from which he saw Lawrence coming when he was coming down stairs with the barrel. He denied telling Officer Leavy and Sheriff Gorman that the barerl had caught in the stairway and said he didn't think he had ever said such a thing because the barrel did not stick.

He concluded his story at 11:30 and was turned over to Mr. Miller for cross examination.

ATTENTION RED MEN

All members of Chinclaclamoose tribe No. 407 are hereby requested to meet in their Wigwam in K. of M. hall, Second street on Sunday beginnigg May 18, 1919 at 6:45 o'clock for the purpose of attending special services in the Eleventh Street M. E. church. A large attendance is requested.

KIDS ARE JOYFUL SO IS DAD. CIRCUS BETTER THAN EVER

Though late arrival, due to railroad connections, made many a little heart in Clearfield quake with fears of disappointment, this is the day when juvenile dreams came true and the "boys" and "girls" of sixty as well as those of six will get their fill of thrills and excitement.

For John Robinsn's Circus, which has delighted three generations of Americans and has become a national institution, is in Clearfield today. There was a gorgeous, golden, glittering street parade around twelve o'clock to reward the thousands who patiently awaited the coming of the spectacle. There was a matinee this afternoon at 2 o'clock and there will be another performance tonight at 8, the doors opening an hour before each to allow inspection of the zoological paradise. Tickets were on sale all day at Stewart's drug store, 207 Market street, at the same prices as at the show grounds, the purpose being solely for the accommodation of those who wished to avoid the crush at the exhibition lot—the Leavy grounds near the Electric Light plant.

The parade of the Robinson circus proved a just reward for all the folk who lined the entire route and who had waited nearly two hours beyond the scheduled time. It embraced all the thousand and one wonders, gathered from every corner of the civilized and uncivilized world, to constitute America's premier tented attraction. There were cavalcades of beautiful women, clad in silks and satins and mounted on prancing, satiny coated steeds; a world renowned company of scarlet-trousered and fez-topped zouaves; warriors, representing all of the nations which crushed Prussianism; gymnasts, aerial performers, questriennes and equestrians, trick mules and donkeys with trick riders and drivers; more than a hundred clowns; magnificent tableaux floats gilded and ablaze with tinseled glory cage after cage of ferocious, man-eating wild beasts, on view in open den—a thrilling galaxy of marvels embracing every branch and field of entertainment and amusement, combined in a program declared to appeal to every human emotion and to abound in a million thrills.

Beneath the great "big top" all of the wonders and marvels of the circus are shown. There are three big rings two elevated stages, a dizzy aerial enconclave, a mile-long hippodrome track. The performance lasts two hours and a half under the big top and, in addition there is a side show which constitutes the greatest congress of wonders in circusland.

It is asserted that the only feature of the John Robinson circus reminiscent of former seasons are the pink lemonade, the popcorn, the peanuts the toy baloons, the elephants and the camels.

MILESTONES ALONG THE ROAD TO PROHIBITION

In 1805 the "Sober Society" was founded at Allentown, N. J.

The blue-ribbon movement was inaugurated by Francis Murphy of Maine in 1873.

In 1842 the Independene Order of Rechabites was organized for the promotion of temperance.

The first local option legislation for the suppression of the liquor trac was enacted in Georgia in 1833.

Federal prohibition was first proposed in the United States senate in a resolution introduced by Henry W. Blair of New Hampshire in 1876.

The prohibition quction first began to take definite form as a political issue in the years immediately following the close of the civil war.

The first Massachusetts woman to graduate from a college was Lucy Stone, the famous suffrage pioneer. She worked nine years to earn money enough to go to Oberlin, then the only college open to women.

COUNTY FAIR HAS FINE PRIZES FOR SCHOOL GARDENS

America has pledged her honor to send abroad two-thirds more food than she sent in 1918. That means 20,000 tons for this year. We still have many troops across the seas to whom food must go in plenty and millions of hungry children are looking to us for the food to keep them alive The real test of the school garden army is at hand. Will we lay down our hoes when the drums cease to beat or are we workers?

It is not too late to start a school garden.

The school garden need not be large especially for the fifth and sixth grades. A plot of ground five or six feet long and three or four feet wide would make a ery nice garden for a pupil of these grades, however there is no objection to larger gardens. The real experience of gardening is an education to a child.

The Clearfield County Fair will offer the following prizes for the best exhibit of school garden products from any school garden in the county.

	1st	2nd	3rd
Fourth grade	$2.00	$1.50	$1.00
Fifth grade	2.00	1.50	1.00
Sixth grade	3.00	2.00	1.50
Seventh grade	3.00	2.00	1.50
Eighth grade	3.00	2.00	1.50
High school	3.00	2.00	1.50

THE MASCULINE ATTITUDE

One of the immemorial wrongs which women have endured is the male habit of regarding a crisis in the kitchen as a joke, instead of what it truly is—a calamity. In this attitude we, of the older suffrage, display a wretched consistency, says Harper's Magazine. On the one hand, we yield to no one in acknowledging the home as the foundation of society. On the other hand, we regard everything connected with the economics of the home as proper subject-matter for Life and Judge. Husbands will return to their families at the end of day and clamor for sympathy against a stupid office boy. But they seem unable to understand what a sudden outbreak of sabotage in the kitchen may mean in the way of dislocation and jangled nerves. That is to say, they understand and they do not understand. The dagger drives deep enough into the soul when emergency compels man to put on a gingham apron over a basin of hot water. But the situation, though bitter, is never quite real. It ought not to be. If only the educated masculine mind were trained on the problem! Unfortunately, that educated mind must hurry downtown to grapple with the vital problem of a new office boy.

AMERICA'S IMMORTALS

NELS WOLD,
Private, Co. I, 138th Infantry.

Private Wold (deceased) was decorated for conspicuous gallantry in action near Cheppy, France, September 26, 1918. Private Wold rendered most valiant service in aiding the advance of his company which had been held up by machine gun nests. He advanced with one other soldier and silenced the guns, bringing with him upon his return 11 prisoners. Later the same day he jumped from a trench and rescued a comrade who was about to be shot by a German officer, killing the officer during the exploit. His actions were entirely voluntary, and it was while attempting to rush a fifth machine gun nest that he was killed. The advance of his company was mainly due to his great courage and devotion to duty. His home address was Kelly Lake, Minn.

MAY BE WORSE, LATER

Sandersville, Ga., May 16 (United Press.)—These are unhappy days for Georgia moonshiners. What is believed to be a world's record was made by revenue agents who captured and destroyed nineteen illicit stills within forty-eight hours.

LONODN, May 16—An exchange telegraph dispatch from Berlin today reported that Foreign Minister Brockdorff-Rantzau, following a conference with the other German delegates announced he would not sign the treaty in its present form because it's terms could not be fulfilled.

By FRED S. FERGUSON
(United Press Staff Correspondent)

PARIS, May 16—Grave danger is lurking behind the peace settlement in the opinion of persons in close touch with the general situation. The theory that Europe is too exhausted to fight does not bear out with history, as in the past, nations at the end of a long struggle are ready for more fighting than in a peace era. At the termination of the Civil war the United States defied France and Great Britain.

From Belgium and from all corners of the world comes criticism on the peace treaty, and the question of Fiume is far from settled.

Italy is playing an entirey new game Instead of pushing her claim she is cooperating in everything and is not touching the question of Fiume but she has not given it up.

Through American influence it is believed that an arrangement will be reached whereby the Ukranians and Poles will cease fighting but this is only one of the minor wars going on in Europe.

GOVERNMENT MACHINERY READY TO ENFORCE JULY FIRST PROHIBITION

WASHINGTON, May 16—Formulation of the government's policy of enforcement of the July 1st prohibition act was practically finished today. The policy includes use of internal revenue officers in reporting violations, collection of manufacturers' liquor tax on all alcoholic beverages of more than 5 per cent. alcoholic contents. Justice department agents expect to arrest brewers making 2 3-4 per cent. beer immediately after the handing down of the expected New York court decision.

FIRE WARDENS GIVEN AUTHORITY OVER FIRE HAZARDS

Police powers of the State permit the chief forest fire warden of Pennsylvania to declare special fire hazards in forests to be public nuisances and to order their abatement, according to an opinion of far-reaching effect rendered to Commissioner of Forestry Robert S. Conklin by Emerson Collins, Deputy Attorney General

The specific inquiries are as to power to order abatement of a break in a safety strip along a right of way of a railroad and the slashings left after lumber operations on lands adjoining State preserves. To order abatement of such conditions is held to be clearly within the power of the forestry authorities of the State and the fire prevention act should, in the language of the opinion, "be given such a liberal construction and vigilant administration as will best effectuate its salutary ends." It is held that it would be futile to establish safety zones and permit breaks to go unchecked, just as it would be contrary to the spirit of the various fire prevention acts to allow conditions to remain in slashings that would create fire hazards. The warden must find the hazard, definitely establish it and "proceed promptly to have the owner abate it.'

"In case of persistent refusal or neglect to remedy in a reasonable and practical way the condition complained of the chief forest fire warden should declare it a public nuisance and proceed to have it abated,' concludes the opinion.

Few visitors who stop to admire the Hall of Records, reputed to be the most beautiful public building in New York City, know that the structure was designed by a woman architect, Miss Fay Kellogg.

MAYOR OLE HANSON—Mayor Ole Hanson of Seattle Wash., is here seen in overalls and jumper tightening bolts in the keel of a ship in the Seattle shipyards. After office hours he spends his time at the yards putting in several hours at hard labor.

THE MIKADO—A PLEASANT RECOLLECTION

During the past three evenings the music lovers of Clearfield have had an opportunity to hear the singing and playing of "The Mikado" by a company of local talent whose performance has far exceeded that of anything attempted in the line of light opera heretofore. The hard work on the part of the performers is over. The tickets have all been sold. The hospital is several hundred dollars better off. We believe we speak for every person who witnessed the performance when we say that the work and sacrific of the performers is appreciated equally as much as their playing. It was indeed a creditable performance and one in which every member of the cast and choruses deserves equal commendation.

BUSINESS BAROMETER

The number of business failures recorded in any given period may not reflect the activity or stagnation of trade prevailing at the time but the record of failure unquestionably may be taken as an unfailing indication of business stability or uncertainty, as the case may be.

That being true, there should be encouragement for doubting souls in the report of financial failures last month and for the year to date as comared with those of the same intervals last year. Notwithstanding that war prosperity was at its height in 1918, the number of failures the first four months of 1919 were only 2,012, or 47 less than for the same months in 1918, and the total number of failure in the United States during April was only 462, the lowest since 1894, and 44 per cent. below the record for April of last year.—(Harrisburg Telegraph)

MASTER OF THE ATLANTIC

One of the big things that have gone almost unnoticed in the comprehensive peace settlement is the award to the United States of all the German ships seized in American ports. Their seizure when we entered the war was recognized as merely a temporary expedient—they were a war weapon to use against the enemy. Now it seems established that we are to keep these ships.

There are about 90 of them altogether, 41 liners fitted for carrying passengers and freight, and 48 cargo ships. Their value is placed at $100,000,000. They are simply taken in part payment of the money Germany owes the United States for sinking American merchantmen, destroying American cargoes, etc. The rest of the bill, amounting in all to a little less than $1,000,000,000, is covered by other German-owned property in possession of our government.

This single act of poetic justice is one of the heaviest blows struck against German ambition. It takes away Germany's strongest weapon of economic conquest, her Atlantic fleet and along with the seizure of Great Britain and other Allies leaves her almost stripped of commercial sea-power.

Germany before the war was the leading factor in the transatlantic passenger trade. Now the United States steps into Germany's place. Great Britain has so much to do in restoring her transportation lines in other trade routes especially those of the Orient that she cannot give much attention to the Atlantic routes for some time.

These German vessels are said by experts to set the American shipping program ahead ten years toward world supremacy on the sea. In a few years, at the present rate of growth, we shall have one-third of the whole world's shipping. In the meantime we are masters of the Atlantic. The ocean between America and Europe has become an American pond.—DuBois Courier.

A SUGGESTION ON MEMORIAL DAY SERVICES

Editor of Progress:

Your editorial of last evening relative to a fitting tribute to our soldier dead of the Great World war is timely. Recognizing that but few of them are buried here but for the present rest on foreign shores, it would be naturally impossible to decorate their last resting place or hold fitting services.

May I offer as a suggestion the following idea. In some appropriate place—my suggestion would be in the park—erect a plain, temporary structure in the shape of a monument, sufficiently large to permit of enrolling thereon the names of the soldiers, sailors, marines and nurses who have made the great sacrifice. This would afford a central place upon which could be laid the floral tributes, and at which point appropriate ceremonies could be held, and, for all those who desire to pay their respect to these sons and daughters of Clearfield, a point of which they could repair.

A structure such as I suggest could be made of plain material, merely temporary in character, and upon which could be enrolled the names of the ones to whom the tribute is doe. Our returned soldiers, I am confident, would heartily endorse such a poposition and would paticipate in the ceremonies. If it was designed, these ceremonies could be held at an hour subsequent to the services which are regularly held for the soldier dead of our earlier wars.

Respectfully,
JOHN M. BAIN

BAPTIST CHOIR ATTENTION

The choir of the First Baptist church will practice in the church Friday evening at 7:30. A full turnout is requested.

Dress Warm And Keep Feet Dry

Tells Rheumatism Sufferers to Take Salts and Get Rid of Uric Acid

Rheumatism is no respecter of age, sex, color or rank. If not the most dangerous of human afflictions it is one of the most painful. Those subject to rheumatism should eat less meat, dress as warmly as possible, avoid any undue exposure and above all drink olts of pure water.

Rheumatism is caused by uric acid which is generated in the bowels and absorbed into the blood. It is the function of the kidneysy to filter this acid from the blood and cast it out in the urine, the pores of the skin are also a means of freeing the blood of this impurity. In lamp and chilly, cold weather the skin pores are closed thus forcing the kidneysy to do double work, they bcome weak and sluggish and fail to eliminate this uric acid which keeps accumulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tabiespoonful in a glass f water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulatng the kidneys to normal action, thus riding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

POULTRY FACTS

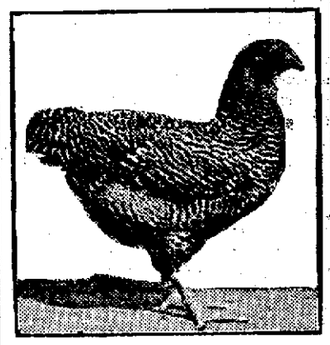
GOOD CARE FOR SETTING HEN

Attention Given Fowl Plays Important Part on Number and Condition of Chicks.

(Prepared by the United States Department of Agriculture.)

The kind of care and attention given a setting hen during the process of hatching eggs plays an important part on the number and condition of the chicks when hatched. See that the hens are made comfortable on the nest, allow them to come off only once a day to receive feed and water.

If there are any that do not desire to come off themselves, they should be taken off. Hens usually return to



A Good Type to Select for Laying.

their nests before there is any danger of the eggs chilling, but if they do not go back in half an hour in ordinary weather, they should be put on the nest. Where a large number of sitters are kept in one room it is advisable to let them off in groups of from four to six at a time. The eggs and nests should be examined and cleaned, removing all broken eggs and washing those that are soiled; in the latter case the soiled nesting material should be removed and clean straw added. Nests containing broken eggs that the hen is allowed to sit on soon become infested with mites and lice, which cause the hens to become uneasy and leave the nest, often causing the loss of valuable sittings of eggs. In mite-infested nests, the hen, if fastened in, will often be found standing over rather than sitting on the eggs. Many eggs that are laid in the late winter and early spring are infertile. For this reason it is advisable to set several hens at the same time. After the eggs have been under the hens from five to seven days, the time depending somewhat on the color and thickness of the shells—white-shelled eggs being easier to test than those having brown shells—they should be tested, the infertile eggs and dead germs removed, and the fertile eggs put back under the hen. In this way it is often possible to put all the eggs that several hens originally started to sit on under fewer hens and reset the others. For example, 30 eggs are set under three hens at the same time, ten under each. At the end of seven days we find on testing the eggs from all the hens that ten are infertile, which leaves us 20 eggs to reset, which we do by putting them under two hens, and have the remaining hen sit over again after she has set only seven days. In this way considerable time can be saved in one's hatching operations.

DOULTRY NOTES

The pullets and the year-old hens are the best egg producers.

* * *

Market all cockerels not wanted as breeders at as early a date as possible.

* * *

A "chicken" is a young fowl, usually under six months of age. It becomes a "fowl" after that period.

* * *

One pound of feathers can be secured from five ordinary fowls, or from ten ducks, or from four geese.

* * *

Whole corn is the proper food for sitting hens. They should have green food, grit, and pure drinking water.

* * *

Eggs for hatching should be carefully selected, well-formed, with good shells, and kept in a temperature of 50 degrees to 60 degrees F.

* * *

The chick worth having is the chick that releases itself from the shell with vigor, life and vitality; that comes jumping, as it were, into life.

* * *

A time-saving plan is to set hens in pairs, and giving the chicks hatched from both to one hen, allowing the other hen to go back to laying.

* * *

In salting the mash dissolve sufficient salt in the water with which the mash is to be moistened. In this way the salt will be more evenly distributed. An ounce of salt is about right for 100 fowls.

Methodism Is Mobilized To Go "Over The Top" In Greatest Project For Humanity Relief Work.

Church Ready For Week Of Intensive Financial Canvass.

"Christianize A Nation And You Democratize It," Says Eminent Divine.

BISHOP WILLIAM F. McDOWELL

Methodism in its fullest strength is now mobilized for the success of the greatest single project ever undertaken by the Church of any age. The great Centenary campaign in celebration of the hundredth anniversary of the first Methodist mission, is nearing its climax, with one of the principal objectives, the intensive financial drive during the week May 18 to 25, for $105,000,000 for world relief and educational endeavors.

Reconstruction projects outlined by the Centenary survey call for huge expenditures in cities and towns all over the country. Large sums are to be spent in localities embraced within the Washington area, comprising Central Pennsylvania, Maryland, Delaware, District of Columbia, Virginia and West Virginia. The welfare of every community is vitally linked up with the gigantic program of social and community betterments.

Hundreds of new churches are to be built, community centers are to be established, and remodeling projects are to be put under way. New hospitals, institutions for the relief of the poor ministerial additions, rural improvements are some of the items that stand out in a schedule of hundreds of benevolences outlined by the Centenary survey. Every town will reap substantial benefits under the Centenary program which aims to spread the good influences of Christianity.

All over this territory every Methodist Church organization is a veritable beehive of activity. Preliminary to the drive for humanity dollars, pastors have organized their congregations into units, and appointed team captains to prosecute the financial canvass. In charge of the financial drive in every church is a group of ten leading laymen for every hundred members.

"Every day is Sunday at our church now," said one preacher, who added that "I took my coat off three weeks ago and haven't had a chance to put in on since. The laymen of my church won't let me. They're hustling so hard, that if I don't hustle too, I'll get lost in the crush." What this minister said is typical of the interest of preachers all over the area. Ministers find their congregations aroused to a sense of the after-the-war responsibilities that face the church.

In addition to the pastor and his lieutenants, active as campaigners for the Centenary are the Methodist minute men. Sixty thousand minute men, including leading church laymen, are carrying the Centenary appeal to churches throughout Methodism. In nearly 1,800 churches in the Washington area, 3,000 men are engaged as minute men, delivering Centenary addresses.

Methodists in this section have set the pace for other districts by conducting a preliminary campaign so as to insure maximum results in the "every member" canvass. In many churches small groups of members have pledged the full quota set by the Centenary. In practically all parts of the Washington area, churches have so perfected their Centenary organizations that the prediction is confidently made by Centenary leaders that the area will go "over the top" with its $7,000,000 quota of the big humanity fund.

Bishop William F. McDowell, of Washington, D. C., who presides over the Washington area, in an official statement, reviewing the Centenary campaign, declared that the big fund will be fully subscribed. Bishop McDowell said that reports from all parts of the area indicated members everywhere are responsive to the world's call upon Methodism to aid humanity in the present world crisis.

The Bishop was extremely optimistic that many districts would far exceed the figure set for them. "No church is failing. Several conferences have gone "over the top." Several districts have gone "over the top." Many individual churches have gone over. In every case where everybody has marched up in line, the success has been not only prompt but perfect.

"The features of the Centenary movement are perfectly well understood. They involve prayer for the world, the gift of life to the world, and taking God into partnership with our possessions."

Bishop McDowell has called upon the 300,000 members in his jurisdiction to respond to the Centenary appeal and respond to it with promptness. The bishop's message, which will be read by pastors and their congregations, carries this admonition:

"Get ready for the Centenary finance campaign by prayer. Get ready for it by study. Get ready for it by a careful adjustment of your finances so that you can meet the situation when it arises with perfect ease."

Discussing the objectives of the Centenary Movement, Bishop McDowell said:

"The Centenary is the movement by which the Methodist Episcopal Church recognizes the beginning of its missionary activity one hundred years ago by plans and purposes which it hopes may be somewhat adequate to the new duties and responsibilities of the church in the world. One hundred years ago a converted Negro, John Stewart, by name, went to the Indians in Northwest Ohio to preach to them. Today the church in same spirit, but in wholly different conditions is proposing to re-alien itself with its tasks at home and abroad in a very large fashion.

"The original survey called for sixteen million dollars per year for five years for work at home and abroad, equally divided. We have added to that five millions for immediate war reconstruction in Eurone and American and other welfare. For other purposes has the movement expanded until we speak of $105,000,000 as our immediate goal, which, of course, is $25,000,000 per year."

Men who have achieved prominence in church work both as clergymen and laymen are leaders in the Centenary campaign.

John T. Stone, of Baltimore, Md., one of the dynamic forces of Methodism is the chairman of the National Centenary campaign committee. John L. Alcock, of Baltimore, leading Methodist layman, is Centenary chairman for the Washington area. Administrative direction of the Centenary in the area is in charge of Rev. Dr. Morris E. Swartz, well known as a leader in the church and for many years pastor of churches in Pennsylvania and other States.

The financial campaign in the area is being directed by Elmore B. Jeffrey, of Baltimore, a conspicuous figure in the business world and a man of large vision in financial affairs. Dr. S. M. Bard and Walter E. Dorland are the area financial campaign directors. William C. Ballard, active Methodist churchman of Baltimore, is the area treasurer. Assisting Executive Secretary Swartz at the Washington area headquarters are a group of specialists attending to definite phases of the working organization.

The campaign of the Centenary is being conducted with business-like precision, with a total absence of the hit-or-miss methods which have marked church projects in other years. Eminent divines who lead the movement declare that the objectives mapped out are bound to be successful.

"Christianize a nation and you democratize it," one eminent divine said. It is this idea that is stimulating the Centenary movement, which is not only nation-wide, but world-wide in scope. The Centenary will give a new meaning to the word religion, for in the purposes of the Centenary Christianity is made truly practical.

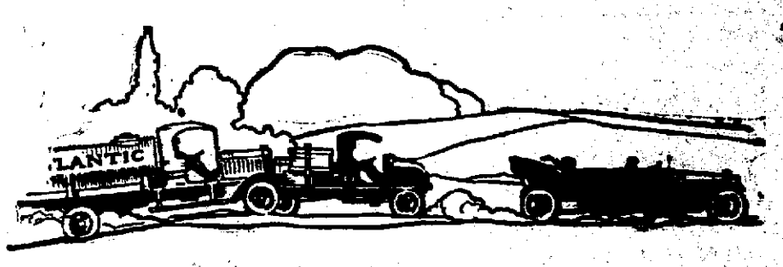
Millions To Be Spent To Decrease Illiteracy.

Probably the greatest educational campaign ever undertaken by a church is that now being launched by the Centenary Movement of the Methodist Episcopal Church and the Methodist Episcopal Church South, which together plan to raise $105,000,000 for missionary work, at home and abroad. More than $14,000,000 will be spent on schools and teachers for the untaught children of the world, and instruction for grown people who had little or no schooling in their youth. Of this sum a considerable amount will be spent on educational work in our own United States.

Of the foreign-born white people in this country more than twelve per cent. are illiterate; of the Negroes, over thirty per cent.; of the Chinese, over fifteen per cent.; of the Japanese, over nine per cent., and of the North American Indians, over forty-five per cent. In many cases, especially in that of the older foreign-born, the Church can teach these people to speak English, to read and write, and to understand American customs and laws, when the public school does not reach them.

Oregon passed a prohibitory law in 1843 and repealed it five years later.

The National Woman's Christian Temerance union was formed in 1874.



Correct Volatility

Atlantic Gasoline is lively. You don't have to coax an Atlantic-fed motor to take the spark. No, not even when the car's been standing.

Just fill your tank with Atlantic Gasoline. Hold out your clutch, throw on your ignition and press the starter-button.

A few revolutions of the crank-shaft and—F-r-r-r! There you are—all set for a spin; carbureter breathing freely; motor purring softly.

Step on her! . . . Eyes front. Keep your foot near the brake. Man, that's *Atlantic* whizzing you along the asphalt like there wasn't any road there a-tall.

And this goes for trucks, too. Powerful, volatile Atlantic Gasoline will cut your hauling-costs to the bone. That's why most trucks use Atlantic and nothing else.

You try it.

TWISTED MAZE OF CIRCUMSTANCES IS HEARD BY JURY

(Continued from Page One)

The witness then said "that to have sent a bullet through this board at the angle and direction of this bullet hole the gun would have had to be at least ten feet above the floor level at the back of the barn and in front of the hack 6 feet 3 inches.

This is a vital point in the prosecution's case as they contend the bullet hole in the board was made by the bullet Ralph Ardary shot through his hat following the shooting of Lawrence Ardary.

Sheriff Gorman was recalled and examined further r egarding his search for bullet holes in the barn but said he found no other, but was satisfied from the appearance of the board that the bullet hole had been recently made.

The District Attorney then offered in evidence the hats of Ralph and Lawrence Ardary, the gloves worn by each, the barrel and board, and the revolver and shells were offerd in evidence as a whole and admitted.

Mr. Van Valzah was recalled and asked how he made his measurements and said the Sheriff had procured an iron rod thirty inches long which he put through the hole from the outside.

Sheriff Gorman was recalled and asked concerning the rod and at the request of the District Attorney produced it. It was then placed in evidence.

The Comomnwealth rested at 5:15.

The prosecution had their evidence in chief all in at 5:15 and District Attorneyy Arnold announced that the Commonwealth rested.

Mr. Liveright for the defense then arose and stated that he did not care to open his case for the jury so near to the time for adjournment and Jugde Bell stated that in a case of the gravity of this it was hardly fair to ask that the defense proceed under the circumstances and directed that Court be adjourned until 9 o'clock Friday morning.

PITTSBURGH CARS STILL IDLE

Pittsburgh,, May 16.—With both sides standing firm there was no change today in the Pittsburgh street car strike situation. As far as could be learned the carmen and receivers of the Pittsburgh Railway Company have made no move toward a settlement.

TRANSPORT PEERLESS NEARS PHILADELPHIA

Philadelphia, May 16.—The transport Peerless today was at anchor near the Delaware Cape according to debarkation authorities and will be unable to proceed to this port until the fog lifts. The vessel carrying 108th Field Artillery, 108th Machine Gun Battalion and a detachment of Co. M, 100th Inf. 28th Div. arrived off the cape soon after 3 a. m. today Should the transport be able to start before noon it could not be docked here until after six tonight.

Three Times A Week For Three Weeks

After the long winter months, too much rich food and too little exercise, practically everyone feels the necessity for a good Spring Tonic and Blood Purifier. The very best spring medicine you can take is the king of tonic laxatives—

CELERY KING

Three times a week for three weeks, brew a cup of this purely vegetable laxative tea and drink it just before retiring. Gently, yet effectively, it will drive out all impurities and not only make you feel better, but look better, right away, giving you a sweet breath, clear skin and a healthy appetite.

Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, spitting headache, stuffy from a cold foul tongue, nasty breath, acid stomach, can, instead feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole o fthe internal poisonous stagnant matter.

Everyone whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach liver kidneys and bowels the previous day's indigestible waste sour bile and oisonous toxins; thus cleansing sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an emty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, acids and solids, and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the hot water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are troubled with constipation, biliousness, sick stomach, sour stomach, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

SALVATION ARMY VALIANT IN WAR

Having Served Gloriously in the Trenches, Is Coming Back From Overseas for Peace Time Activities.

ASKS HOME SERVICE FUND.

National Campaign to Replenish Resources Depleted by Long and Direct Contact Services With Our Boys Scheduled for May 19-26.

New York (Special).—Like the 2,000,000 American boys whom it served so gloriously in the trenches of France, the Salvation Army is coming back from overseas, ready to put aside its khaki uniform of war service, don again the "Civvies" and embark once more on its normal peace time activities.

And, just like those doughboys, the Salvation Army has come out of the war victorious and with citations for bravery, decorations for gallantry under fire and golden chevrons indicative of honorably won wounds on its arm. The victory which the Salvation Army has won is a victory over the obstacles that lay before it in its purpose of efficient service of the fighters of Pershing's army. Its citations are the thanks, cheers and prayers of 2,000,000 doughboys. Its wound stripes are rightfully golden of hue, for they typify the unselfish way in which the Army threw all its resources—financial, spiritual and moral—into the effort to help the American soldiers in France.

Now the Army is asking the people of America to give it concrete evidence of the gratitude which has been so loudly, and so willingly expressed. From May 19 to 26 the Salvation Army will conduct in the United States a campaign to raise $13,000,000 for its Home Service Fund. The money is needed both to recoup the fortunes of the Army, shattered by its long service of the soldier and to permit it to carry on the work it has always done on the larger scale which the public now demands. Raising the money by this means, the Salvation Army explains, will eliminate, perhaps permanently, the necessity for the senseless solicitation of funds which has been a bugbear to the Army and the public alike. It will permit the workers of the Army, who, forced to devote more than half their time to gathering money, were in consequence only half efficient in their evangelistic and social service work, to devote all their time in future to the duties for which they have been trained.

The amount of the fund has been determined exactly and logically by means of budgets prepared locally by workers of the Salvation Army in all parts of the United States.

Already headquarters for the campaign have been established in New York City. A ready response in encouragement and cheering wishes for success has been heard from all parts of the country. Men and women prominent in all walks of life have volunteered their services as active participants in the drive. The Army's 2,000,000 loyal rooters—the boys who went overseas in khaki—are all lined up ready to help. The Army not only helped them over there, but it found jobs for many of them after they had been mustered out of service, helped them get the civilian clothing that was necessary if they wanted to take those jobs, fed many of them, gave them shelter and furnished them with transportation to their homes.

For the war service of the Salvation Army is still under way. Its workers are still, many of them, in France, and its huts, clubhouses and hotels for the reception of the boys returning from abroad are in full swing here.

Neither, the Salvation Army asserts, will its war work be abandoned until the last boy is out of the khaki of the army or the blue of the navy. The larger activities which necessitated the coming campaign will exist and be financed independently of the service of the fighters from abroad.

CARDINAL GIBBONS ENDORSES S. A. DRIVE

Venerable Churchman Expresses Hope That $13,000,000 Will Be Raised.

The following letter was addressed to former Governor Whitman of New York state by Cardinal Gibbons:

"Honorable and Dear Sir—I have been asked by the local Commander of the Salvation Army to address a word to you as National Chairman of the campaign about to be launched in behalf of the above named organization. This I am happy to do, and for the reason that along with my fellow American citizens I rejoice in the splendid service which the Salvation Army rendered our soldier and sailor boys during the war. Every returning trooper is a willing witness to the efficient and generous work of the Salvation Army both at the front and in the camps at home. I am also the more happy to commend this organization because it is free from sectarian bias. The man in need of help is the object of their effort, with never a question of his creed or color.

"I trust, therefore, your efforts to raise $13,000,000 for the Salvation Army will meet with a hearty response from our generous public. Faithfully yours,

"J. CARD. GIBBONS."

In 1826 the American Society for the Promotion of Temperance organized in Boston.

Come In and See The Helper In The Kitchen That You Can Keep

A NAPANEE Dutch Kitchenet is a servant in the kitchen that you can always keep. This means something in these days when so many more women do all there own work. Help, at one time easily obtained, is no difficult to get. Thousands of women have been so bothered with the eternal "servant problem" that they welcome the relief from it which has been afforded them by

The Napanee Dutch Kitchenet

This triumph of ingenuity has so systemized women's work---so elimanated the drudgery---as to make them independent of maids and cooks. Many women declare that they enjoy doing their kitchen work now that it is simplified and made so much easier by the Dutch Kitchenet.

Do Not Deny Yourself This Labor Saver

Do not, for the sake of a few dollars, deny yourself the benefits to be derived from having a Napanee Dutch Kitchenet in your home every day in the year.

It is really a beautiful piece of furniture, and is more useful and convenient than it is attractive. You need not wear yourself out drudging in an improperly equipped kitchen. We will be glad to show you the many special features of the Napanee Dutch Kitchenet and, if you so desire, arrange terms by which you can put one in your home immediately and begin to enjoy it. Prices as low as ..... $25.00 up to $55.00

Napanee Dutch Kitchenet Special Features

Scientifically ventilated Cooling Compartment in Base
Cheerfulness that starts in the kitchen soon finds its way all over the home

SPECIAL OFFER FOR ONE WEEK ONLY

$1.50 Hardwood combination pantry stool and ladder free with every cabinet purchased during this demonstration.
Factory demonstrator in charge. Do come and see them.

LEITZINGER BROTHERS

Comb Sage Tea Into Gray Hair

Darkens Beautifuly and Restores its Natural Color and Lustre At Once

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Mixing the Sage Tea and Sulphur recipt at home, though, is trouble some. An easier way is to get the ready-to-use preparation improved by the addition of other ingredients a large bottle, at little cost, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of mess.

While gravy, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound no one can tell, because it does it so naturally, so evenly. You just dampen a sponge, or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another aplication or two your hair becomes beautifully dark, glossy soft and luxuriant and you appear years younger.

Why You Should Use The WATTS PLANTS

BECAUSE They are grown from the highest grade seed, strongest in vitality and producing qualities.

BECAUSE They have been grown in soil and boxes that have been thoroughly steam-sterilized, no disease or germs go with them.

BECAUSE They are not soft and tender, but stocky, low-built, hardened and rugged.

BECAUSE They are all Transplanted, have strong root systems and are far superior to the low priced seedlings so often sold.

BECAUSE They are sold in small boxes, soil and all, and can be kept indefintely if the garden is not ready.

BECAUSE They can be planted in the garden with large chunks of soil attached to the roots.

BECAUSE they embrace the varieties of cabbage, tomatoes, celery, cauliflower, peppers, pansies, asters, etc., best adapted to the soil, climatic and market conditions of this region.

BECAUSE They are sold at reasonable prices by The Workman's Stores, Clearfield, and by dealers in most of the towns of the county.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quartr pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. massage this sweetly fragrant lotion into the face, neck, aarms and hands each day and see how freckles and blemishes disappear and how cetar, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

SCHOOL NOTES

The H. S. orchestra is to go to the Junior High to play for the comedy "The Drum Major". This is the play the Eighth grade has been working on for their commencement May 23d.

She'll be here a week from Monday. Who? You say, why didn't you know the Senior class is resenting "The Arrival of Kitty" then?

Copies of The Breeze were placed on sale Thursday after school. It's a "regular" magazine.

Hear Pontius sing a week from Sunday.

Chapel exercises have been few and far between so students took it upon themselves to have chapel Thursday noon. Alythough only half of the student body was there enough noise was made for a regiment.

Signs of a Sophomore banner were seen around the hall but it was kept fairly well under cover.

Tuesday the Senior class raised a banner on the left tower of the High school. When the Junior class members viewed this there was blood in their eyes. They had been taught since entering High school that this kind of spirit was a thing of the past but what were they going to do about it? They didn't want to tear it down and break the rules. They didn't even try. There is an unwritten law in the Clearfield High school that the Seniors should set the examples—the Juniors knew this and prepared to carry out the example of the Seniors. They did.

The lower classes upon entering the door Thursday morning rubbed their eyes in astonishment. Were they at a Boardman wrestling bout, no, but what was that fellow doing up on the step ladder? Oh, just trying to take down the 1920 banner.

Then the class war was interrupted by school authorities and each class was asked to take down its banner. After this was done they were informed that there would be no Junior-Senior banquet. It's a cruel wourld.

JURY SYSTEM MUST BE UPHELD

Clearfield, May 15th
The Clearfield Progress

I want to commend you for the editorial in today's issue entitled "What Manner of Men are These". It expresses my thought and that of a number of our right thinking citizens. It apears to me it is high time that our people should learn something of what good citizenship is. And right here seems to me points to the necessity of some simple rudimentary instruction on these duties in our public schools. So that the rising generation may be saved from such exhibitions as we had here this week. There has been nothing offered that can take the place of the jury system, but it must be safeguarded by intelligence and loyal patriotism if it is to be maintained effective.

If Back Hurts Begin On Salts

Flush our Kidneys Occasionally If You Eat Meat Regularly

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleelessness, bladder disorders come from sluggish kidneys.

The moment yoyu feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys wil lthen act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generatoins to flush clogged kidneys and stimlate the nto activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complication.

Gossip for Tonight's Tea Table

Mr and Mrs. E .L. McCracken of of Madera, were in town attending to business yesterday .

Lou Cardon and Hazard Chase spent last evening in Houtzdale.

Miss Madeline Mignot of Frenchville was shopping in town today

M12-16

LUTHERAN CHURCH

The English Lutheran church will be glad to share with the general public a free stereopticon lecture to be delivered at the church next Sunday evening, May 18, by the Rev. Roy M. Dunkelberger, a returned missionary from India. On account of the nature of the service, it will be held at 8:00 o'clock. The preliminary devotional service will last half an hour, so that the lecture will really begin at 8:30, because it will not be dark enough before that. The subject is "India and the Far East". Over 100 slides will be shown. It is well worth your while.

Urges Everyone To Quickly Get On Water Wagon

Drink Glass of Hot Water Before Breakfast to Wash Out Poisons

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a head ache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for one week.

Before breakfast each drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless cans of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost veryy little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, billious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured will have them both looking and feeling better in every yway.

WORD FROM THE 80TH

We are in recipt of a post card from Frederick Kittelberger, son of Postmaster Kittelberger of Curwensville mailed at Le Grand Luce, April 25th, in which he says they expect to leave for Brest within a week and hop to be in the States shortly after May 15th. The post card showed the location of the 305th Ammunition Train, in which so many Clearfield county boys are located.
